Chest Wall
International
Group

21st Congress of the Chest Wall
International Group | 19-21 November 2020
Roda Al Bustan Hotel | Dubai, UAE

Save the Date

19-21 November 2020

Featuring a keynote lecture by:

Prof. em. Donald Nuss, the honorary president of CWIG. He developed the technique of minimally invasive repair of pectus excavatum (Nuss procedure) which is today the worldwide used "golden standard" technique.

Congress Key Topics:

Workshop:

Pectus excavatum & Pectus carinatum – Surgical treatment

- How I perform the standard surgical repair

Conference:

• Pectus excavatum – Pectus carinatum

- Clinical symptoms – what is common, what is rare?
- Diagnostic work-up – what is essential, what is “nice to have”?
Allergy testing in every patient?
- Pain management
- Physiotherapy instruction
- Restriction – no restriction – follow-up program
- Implants – short bar/long bar; one stabilizer/two stabilizers; pericostal fixation; cross bar
- Intraoperative modifications – thoracoscopy, sternal elevation technique, etc.
- Kyphosis/scoliosis and CWD – what to treat first?
- Patients with congenital cardiac malformations/Pectus repair and cardiac surgery
- My worst case
- Whom I should never operate on

• Nonsurgical treatment of pectus excavatum and pectus carinatum

• Chest Wall Trauma

• Chest Wall Malignancy

• Congenital malformations

- Is your company involved in manufacturing or supplying of thoracic instruments/thoracic implants?
- Do you have innovative technology to help Paediatric Surgeons/Thoracic Surgeons?
- Are you specialist in perioperative/postoperative pain management?

Get involved, Display products, Conduct a workshop, we have it all provided to our sponsors. **SPONSOR OR EXHIBIT AND GET NEW BUSINESS LEADS.**
